Overview

Mortenson, a family-owned general contractor based in Minneapolis, operates regional offices in nearly 15 U.S. cities and generated close to \$5 billion in revenue last fiscal year. Known for constructing iconic buildings, Mortenson's diverse portfolio includes professional sports arenas, the Walt Disney Concert Hall in Los Angeles, and projects across industries such as entertainment, renewable energy, aviation, healthcare, and higher education.

Challenges

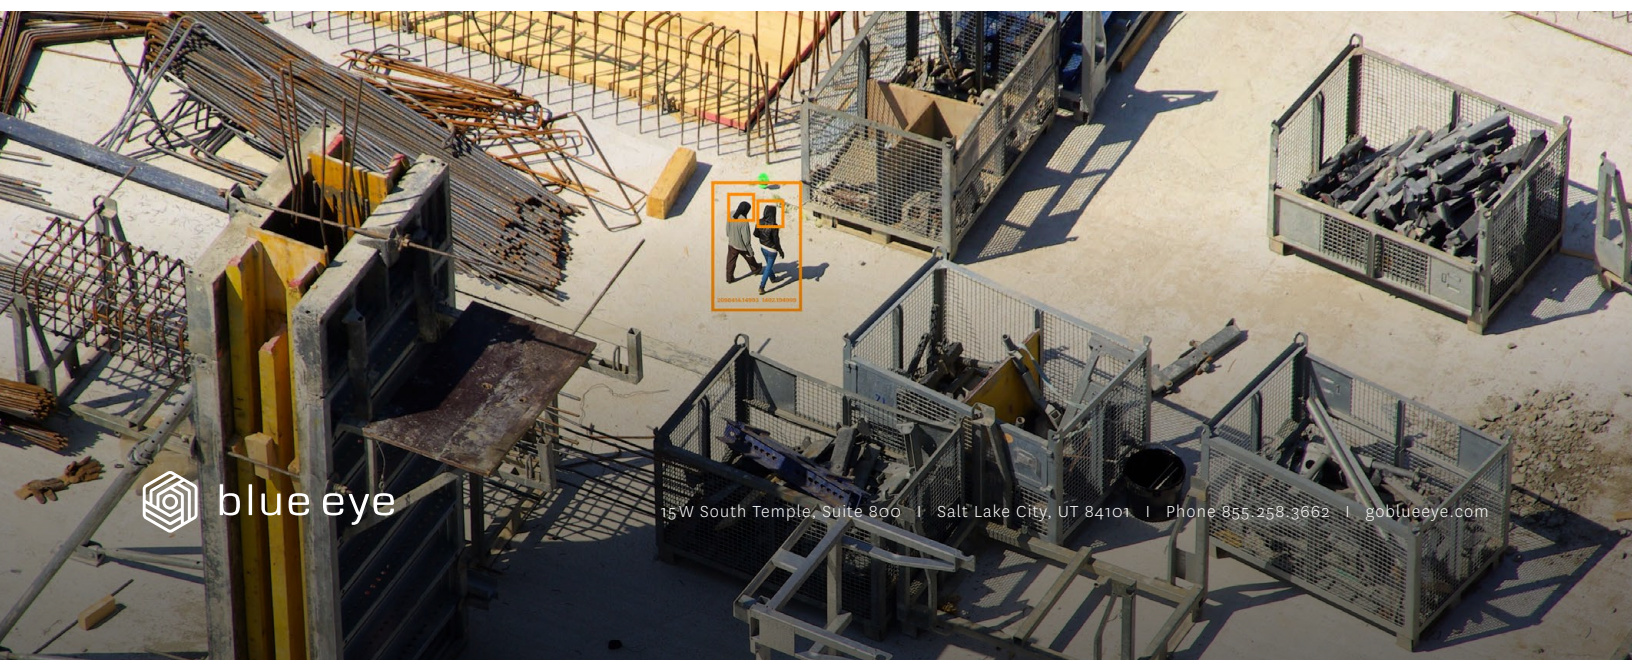

Mortenson's wind and solar operations sought to reduce site security costs and explore how remote video monitoring could augment or replace on-site security guards for improved safety and efficiency.

Solution

Blue Eye implemented its mobile security solution at Mortenson's wind and solar construction sites, using solar-powered trailers equipped with real-time video monitoring. This mobile solution is designed for remote and large-scale sites, offering flexibility and continuous coverage where traditional security systems may fall short. Each site typically uses at least two trailers, strategically positioned to monitor entrances, exits, valuable assets, and the perimeter. The trailers are capable of operating independently in off-grid locations, making them ideal for large, open construction sites. In addition to 24/7 monitoring, many Mortenson sites take advantage of Blue Eye's private dispatch service, ensuring immediate action when a security breach, such as vandalism or break-ins, is detected.

Impact

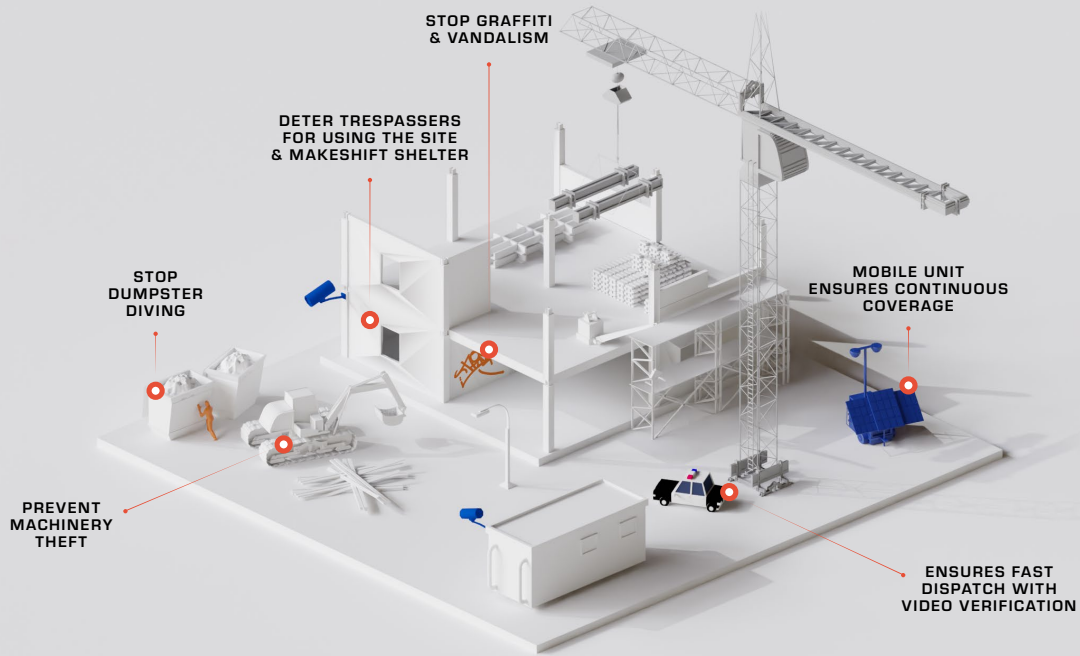

Mortenson consistently selects Blue Eye as their preferred security partner, thanks to prompt service, rapid installation, and video verification that accelerate law enforcement intervention. Blue Eye's exceptional customer service and swift responses contribute to seamless site security management.

“

I’ve partnered with Blue Eye on every project I’ve managed since 2019 and from my first contact with them, they’ve demonstrated superior customer service. Their solution is incredibly efficient for remote construction.”

- Tyler Yseth, Project Manager at Mortenson Construction

No other service comes close. But we’ll compare it for you anyways.
